PROFILE

Graduating HBO-ICT student at Zuyd University of Applied Sciences with a broad software development foundation and a specialization in front-end, UI/UX and design systems. During my graduation internship at Stream Software, I work on a central UI library and design foundations using Next.js, TypeScript, MUI and Storybook. I also have a foundation in C#, Python, APIs and databases. My goal is to grow as a junior fullstack developer, combining strong interfaces with solid technical implementation across the stack.

TECHNICAL SKILLS

Front-end: React, Next.js, TypeScript, JavaScript

Backend foundation: C#, Python, REST APIs, databases

UI & styling: MUI, Storybook, HTML, CSS, responsive design

Tools: Git, GitHub, Figma, VS Code

Concepts: design systems, UX, accessibility, component-based development

EDUCATION

HBO-ICT 2021 - present
Zuyd University of Applied Sciences, Heerlen

HAVO - Nature & Health 2015 - 2021
Graaf Huyn College, Geleen

PERSONAL SKILLS

Accurate • Eager to learn • Independent •
Communicative • Customer-oriented • Stress-resistant

WORK EXPERIENCE

Graduation Intern Front-end / Design System | Stream Software May 2026 - present

Developing a central UI library and design foundations for multiple enterprise applications.

- Analyzing UI consistency, component usage and UX improvement opportunities.
- Building and documenting components with Next.js, TypeScript, MUI and Storybook.

Pick and Packer | Allekabels May 2025 - present

Part-time work in a logistics environment alongside my studies and internship.

- Picking, checking and preparing orders; working accurately under time pressure.

Web Designer / Project Assistant | De Veste Limburg 2024 - 2025

Independently designing and developing a website for a client.

- Translating requirements into structure, responsive UI, improved UX and visual design.

Project Assistant Intern / Website Designer | LIME Connect 2024 - 2025

Worked on a scrollytelling proof of concept around data storytelling and empathy.

- Created two web concepts combining data, storytelling, research and documentation.

Additional experience: Waiter / Server - Sushi en Grill Geleen (2021 - 2024) | Warehouse Employee - Hendriks Bloemen (2018 - 2021)

PROJECTS

Central UI Library & Design Foundations - Stream Software

Design system for consistent UI/UX and reusable components across multiple applications. Next.js, React, TypeScript, MUI, Storybook and design tokens.

Scrollytelling Proof of Concept - LIME / Zuyd

Interactive web concepts combining data visualization and personal storytelling for research into empathy.
